Email Security

Tupicoffs

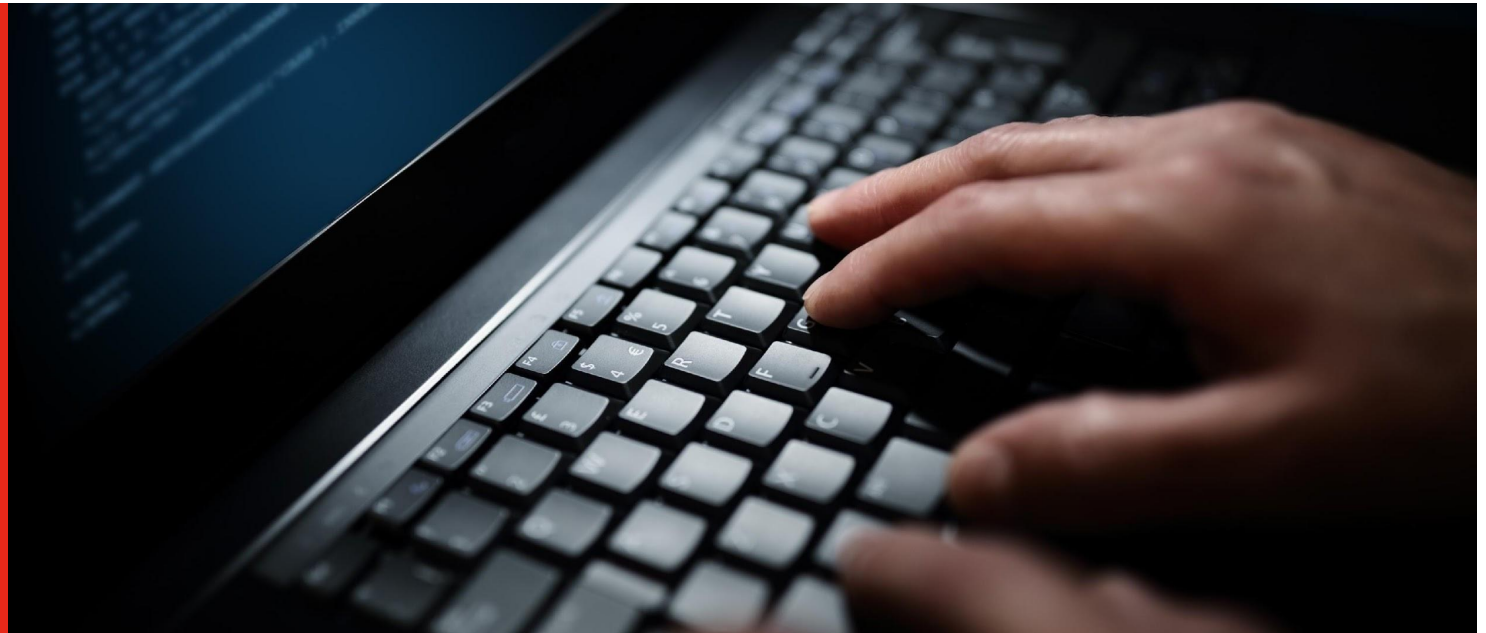

*We worry about your money - being stolen
So you don't have to*

Why is email security important?

Email Security

- You have A LOT of personal information stored in your emails.
- Important to secure your emails to safeguard this information
- Can easily be achieved by employing security measures

How do emails get targeted?

Email Security

1

Phishing and Spear Phishing attacks

2

Weak passwords

3

Malicious download links and attachments

Ways to secure your email

Email Security

1

Use antivirus/anti malware to scan your email attachments
Gmail is great for this

2

Use a strong unique password

3

Use 2 Factor authentication to access your email

4

We recommend Gmail for its security features

We worry about your money, so you don't have to
